**Party: United States**  
**Period: Pre-Season Information - 2010/2011**

### Operational Information – Non Governmental Expeditions - Ship-Based Operations

<b>Operator:</b>	<b>Name:</b> Abercrombie & Kent USA LLC <b>Contact Address:</b> 1411 Opus Place, Excutive Towers 2, Suite 300, Downers Grove, IL, USA 60515-1182 <b>Email Address:</b> bsimpson@abercrombiekent.com <b>Web Site Address:</b> http://www.abercrombiekent.com								
<b>Name of Vessel:</b>	<b>M/V Le Boreal</b>								
<b>Country of Registry:</b>	France								
<b>Number of Voyages:</b>	3								
<b>Maximum Crew:</b>	136								
<b>Maximum Passengers:</b>	264								
<b>Remarks:</b>	<p>Estimate 200 passengers/voyage. No more than 100 will be landed at one time and operators will maintain the minimum staff-to-passenger rate of 1:20 ashore. These voyages plan to visit a variety of places within the Antarctic Peninsula area, including coastal areas and nearby offshore islands. Planned activities include scenic cruising, whale- and other wildlife-watching excursions in Zodiac-landing craft, and landings at wildlife sites, scientific research stations, and sites of historic interest. Permission will be obtained in advance for visits to scientific research stations and, when required, to sites of historic interest. Additionally, adherence to the 72-hour prior notification of a visit to station commanders will be followed, as will reconfirmation (24 hours out) for any pre-arranged visit. This schedule, however, is still a preliminary schedule. With the exception of pre-arranged visits to scientific stations, the final itineraries will be determined on board by the Captain and Expedition Leader, based upon weather and ice conditions and coordination of our schedule with other vessels (where known), and in consultation with Expedition Leaders aboard the other ships. Sites visited may vary depending on weather and ice conditions as well as length of cruise.</p>

<b>Name of Vessel:</b>	<b>S/V Northanger</b>			
<b>Country of Registry:</b>	New Zealand			
<b>Number of Voyages:</b>	1			
<b>Maximum Crew:</b>	2			
<b>Maximum Passengers:</b>	10			
<b>Remarks:</b>	<p>Estimated number of passengers on this voyage is six. The objective of the voyage is to sail to the Antarctic Peninsula and depending on the ice and weather conditions, arrive at Melchior Island and continue southwards by boat as far as the Argentine Islands. With a small group of highly experienced sailors and sea kayakers the organizers plan to visit a number of the relatively safe small boat anchorages. From there, day kayaking trips will be made in attempts to sea kayak some of the most spectacular, and safe shorelines in the Peninsula Area. Some exploratory excursions will be made in search of safe, kayaking areas in the Peninsula area. The expedition organizers have no intentions of visiting any of the bases or entering any ASPA's or SMA's or HSM's apart from Port Lockroy. Deception Island is the closest they may come to any of these areas on this voyage apart from Port Lockroy. Copies of all print outs available regarding the areas to avoid plus codes of conduct will be kept on hand. Other activities that the expedition will be pursuing are: • observing wildlife • camping in a few select areas • photographing and filming surroundings • charting and logging areas visited to aid in making small boat navigation less dangerous for those that follow.</p>

<b>Operator:</b>	<b>Name:</b>	Lindblad Expeditions, Inc.		
	<b>Contact Address:</b>	96 Morton Street, 9th Floor, New York, NY USA 10014		
	<b>Email Address:</b>	dwaynes@expeditions.com		
	<b>Web Site Address:</b>	www.expeditions.com		
<b>Name of Vessel:</b>	<b>MS National Geographic Explorer</b>			
<b>Country of Registry:</b>	Bahamas			
<b>Number of Voyages:</b>	10			
<b>Maximum Crew:</b>	90			
<b>Maximum Passengers:</b>	148			
<b>Remarks:</b>	<p>Estimated number of passengers per voyage is 30. Voyage itineraries will include visits to a variety of places in the Antarctic Peninsula area, including coastal areas and nearby offshore islands. With the exception of pre-arranged visits to scientific stations, final itineraries will be determined on board by the Captain and Expedition Leader, taking into account weather, ice conditions and scheduling coordination with other tour vessels. Coordination of itinerary with Expedition Leaders on other tour vessels is a priority, as it is for other IAATO member companies conducting expedition voyages. Itineraries have been posted to the IAATO Ship Scheduler on the IAATO website. Planned activities include scenic cruising, excursions in Zodiac landing craft, and landings at wildlife sites, scientific research stations, and historic sites and huts. Permission will be obtained in advance whenever required for visits to scientific research stations and historic huts.</p>

<b>Name of Vessel:</b>	<b>MV Insignia</b>			
<b>Country of Registry:</b>	Marshall Islands			
<b>Number of Voyages:</b>	1			
<b>Maximum Crew:</b>	373			
<b>Maximum Passengers:</b>	777			
<b>Remarks:</b>	(www.OceaniaCruises.com) Estimated number of passengers is 754 with a total crew of 396. The purpose of the Proposed Expedition is to present the Antarctic continent to a limited number of tourists. Shipboard tourism provides a means, within the provisions of the Antarctic Treaty System and the Protocol on Environmental Protection to the Antarctic Treaty, to meet tourism demand without the need for permanent land-based infrastructure. The benefits derived from tourism, such as better knowledge and appreciation of the region is substantial; many passengers acquire a life-long interest in the region after making perhaps one visit by ship. The wildlife-rich coastline, snow-covered mountains, glaciated landscapes, and extreme weather of this physically remote and magical part of the world are experiences that few will forget. Visiting Antarctica by ship is also a privilege that will be supplemented by an educational program in keeping with relevant ATCM resolutions, so that visitors will acquire an understanding and respect for the protection of the Antarctic continent and its flora and fauna. Sites visited may vary depending on weather and ice conditions as well as length of cruise.

<b>Country of Registry:</b>	Bahamas			
<b>Number of Voyages:</b>	9			
<b>Maximum Crew:</b>	122			
<b>Maximum Passengers:</b>	132			
<b>Remarks:</b>	<p>Estimated number of passengers per voyage is 132. Activities will include visits to a variety of places in the Antarctic Peninsula region including coastal areas and nearby offshore islands. With the exception of pre-arranged visits to scientific stations, our final itineraries will be determined on board by the Captain and Expedition Leader, taking into account weather, ice conditions and scheduling coordination with other tour vessels. Coordination of our itinerary with Expedition Leaders on other vessels is a priority, as it is for other IAATO member companies who are conducting expedition voyages. Landing and Zodiac cruising will occur at a variety of wildlife sites, scientific research stations, and historic sites and huts. Permission will be obtained in advance whenever required for visits to scientific research stations and historic huts. Additionally, we adhere to the 72-hours prior notification of our visit to station commanders and reconfirm again 24 hours prior to a planned visit. We are aware of Protected Areas and Management Plans as noted on the Antarctic Conservation Act and subsequent agreements set forth by the Antarctic Treaty Consultative Meetings. A comprehensive Resource Notebook and or Computer Disc will be compiled prior to the season for use on board which will include all such management plans and documents.</p>

	<b>Contact Address:</b>	14471 Miramar Parkway, Suite 401, Miramar, FL USA 33027		
	<b>Email Address:</b>	marion.currier@residensea.net		
	<b>Web Site Address:</b>	www.residensea.com		
<b>Name of Vessel:</b>	<b>The World</b>			
<b>Country of Registry:</b>	Bahamas			
<b>Number of Voyages:</b>	2			
<b>Maximum Crew:</b>	270			
<b>Maximum Passengers:</b>	660			
<b>Remarks:</b>	Expect to carry 300-350 pax per excursion. Due to the unique home-owner status of our Residents, the majority of our passengers have great flexibility to embark and disembark with as little as 24 hour's notice, which may alter final passenger count. The voyages are for tourism, educational and expedition travel. The World's itineraries will include visits to a variety of places in the Antarctic Peninsula, including coastal areas and nearby offshore islands. With the exception of pre-arranged visits to scientific stations, final itineraries will be determined on board by the Captain and Expedition Leader, taking into account weather, ice conditions and scheduling coordination with other tour vessels.

<b>Name of Vessel:</b>	<b>M/V Clelia II</b>			
<b>Country of Registry:</b>	Malta			
<b>Number of Voyages:</b>	11			
<b>Maximum Crew:</b>	67			
<b>Maximum Passengers:</b>	110			
<b>Remarks:</b>	Estimated number of passengers per voyage is 100 (or fewer). The expedition cruises will visit the Antarctic Peninsula. Passengers will land at a number of coastal sites and offshore islands and will participate in Zodiac cruises. The Captain and Expedition Leader will determine the final itinerary for each voyage, except for pre-arranged visits to research stations. For these visits, 72- and 24-hour prior notification will be coordinated with the station manager. The Expedition Leader and staff will organize all landings, Zodiac cruising and operations ashore. Landings will involve no more than 100 tourists ashore exclusive of expedition staff at any one time and a minimum ratio ashore of 1:20 staff to passengers will be maintained. The Expedition Leader or appointed staff member will coordinate schedules with other tour operators so that no two vessels are in the same locality at the same time. Sites visited may vary depending on weather and ice conditions as well as length of cruise.

<b>Operator:</b>	<b>Name:</b> Vulcan, Inc. <b>Contact Address:</b> 505 Fifth Avenue South, Suite 900, Seattle, WA USA 98104 <b>Email Address:</b> <b>Web Site Address:</b>								
<b>Name of Vessel:</b>	<b>M/Y Octopus</b>								
<b>Country of Registry:</b>	Cayman Islands								
<b>Number of Voyages:</b>	1								
<b>Maximum Crew:</b>	65								
<b>Maximum Passengers:</b>	35								
<b>Remarks:</b>	<p>Vulcan Inc. proposes to undertake a private expedition to the Antarctic Peninsula aboard the yacht M/Y Octopus during December 2010-January 2011. The cruise will start and finish at Ushuaia, Argentina, and will be solely for the owner, owners' family and invited guests. Some guests may disembark at King George Island for a flight to Punta Arenas. Any that remain onboard will disembark in Ushuaia. There will be no commercial retailing of passenger places on the vessel. The vessel made a voyage to the Antarctic Peninsula in January-February 2007 and visited a number of locations in the northern part of the Peninsula. The purpose of this cruise is to visit new locations in the eastern Antarctic Peninsula, including research stations and historic sites, to transit Prince Gustav Channel, and to attempt to cross the Antarctic Circle in the Weddell Sea. The yacht carries one McDonnell Douglas MD900 Explorer and one Eurocopter EC-145 helicopter that will be used during the cruise for sightseeing activity, where this can be managed within the requirements of ATCM XXVII Resolution 2 (2004). The vessel also carries an number of tenders and Zodiac craft (listed in §B.2) that will be used for shore landings and sightseeing cruises. The Zodiacs will also support recreational SCUBA diving, overseen and managed by an experienced Dive Master. There is a full dive suite with recompression chamber on the yacht. An underwater Remotely Operated Vehicle (ROV) may be deployed in Antarctic waters if there are suitable conditions. The ROV is connected by an umbilical, and has a depth rating of 3000 m (9842 ft). It will be used to view underwater features, such as searching for hot vents around Deception Island, viewing the underside of floating sea ice or icebergs, and to search for the wreck of MV Explorer. The ROV will be operated by an experienced crew that have worked with this vehicle in a range of locations. The yacht also carries a 10 person manned autonomous submersible, rated to 365 m (1200 ft). A 8.70m RIB Zodiac will support launch and recovery of the submersible, and underwater communications and acoustic tracking during operations. Further support can be provided by the ROV. The submersible will be deployed, if there are suitable weather and sea conditions, for manned underwater observations. The proposed outline itinerary is subject to weather and sea ice conditions, and with ongoing discussions with IAATO to ensure that it fits with pre-existing itineraries entered into the IAATO Ship Scheduler by members. Where possible, the itinerary will be coordinated with non-IAATO ship and yacht activities. A detailed itinerary will be included in the IEE that is in preparation.</p>

<b>Name of Vessel:</b>	<b>M/V Sea Spirit</b>			
<b>Country of Registry:</b>	Bahamas			
<b>Number of Voyages:</b>	1			
<b>Maximum Crew:</b>	85			
<b>Maximum Passengers:</b>	120			
<b>Remarks:</b>	<p>Estimated number of passengers for this voyage is 110. Itinerary will include visits to a variety of places in the Antarctic Peninsula area, including coastal areas and nearby offshore islands. With the exception of pre-arranged visits to scientific stations, final itineraries will be determined on board by the Captain and Expedition Leader, taking into account weather, ice conditions and scheduling coordination with other tour vessels. Expedition Leaders will coordinate itineraries with other tour vessels daily during the voyage. Landings and Zodiac cruises will occur at a variety of wildlife sites, scientific research stations, and historic sites and huts. Permission will be obtained in advance whenever required for visits to scientific research stations and historic huts. We adhere to the 72-hour prior notification of our visit to station commanders and reconfirm 24 hours prior to a planned visit. We are aware of site guidelines, protected areas and management plans as note in the Antarctic Conservation Act and subsequent agreements set forth by the Antarctic Treaty Consultative Meetings. This voyage will be undertaken for the purpose of tourism.</p>
