---

*This site fulfills the annual obligation of the United States of America as an Antarctic Treaty signatory to report its activities taking place in Antarctica. This portion, Modifications to Plans 2000-2001, supplements Planned Activities for July 2000 through June 2001 published elsewhere on this site.*

## **Introduction**

Organization and content of this site respond to articles III(1) and VII(5) of the Antarctic Treaty. Format is as prescribed in the Annex to Antarctic Treaty Recommendation VIII-6, as amended by Recommendation XIII-3.

The National Science Foundation, an agency of the U.S. Government, manages and funds the United States Antarctic Program. This program comprises almost the totality of publicly supported U.S. antarctic activities—performed mainly by scientists (often in collaboration with scientists from other Antarctic Treaty nations) based at U.S. universities and other Federal agencies; operations performed by firms under contract to the Foundation; and military logistics by units of the Department of Defense.

Activities such as tourism sponsored by private U.S. groups or individuals are included. In the past, some private U.S. groups have arranged their activities with groups in another Treaty nation; to the extent that these activities are known to NSF, they are included. Visits to U.S. Antarctic stations by non-governmental groups are described in Section XVI.

This document is intended primarily for use as a Web-based file, but can be printed using the PDF option. Its internal cross links and links to other sites present more information than in the print publications of past years. These links also are intended to facilitate easy use of the site.

## Other

In addition, several other organizations conducted or supported tourism activities in the Antarctic during the 2000-2001 season. Although some of these organizations are not U.S. based, some American citizens were involved in their planned activities and for this reason are reported here.

### SHIPBORNE

a) Hapag-Lloyd Cruises of Hamburg, Germany, operated two vessels in the Antarctic Peninsula. The Hanseatic conducted 8 cruises, while the Bremen conducted on one cruise.

- b) Marine Expeditions of Toronto, Canada, conducted approximately 17 cruises to the Antarctic Peninsula using the Mariya Yermolova and the Lyubov Orlova.

## **LANDBASED**

Adventure Network International (ANI), a Canadian company with an office in Beaconsfield, England, conducted several 11-17-day excursions to the interior of the Antarctic continent. Travel from Punta Arenas, Chile, to Adventure Network's Patriot Hills base camp (80°20'S, 81°20'W) was via a South African chartered C-130 cargo/passenger aircraft. These various inland excursions occurred during November 2000 - mid-January 2001 using two chartered Twin Otters and their own Cessna C-A185F aircraft.

## **XI. Refuges**

---

*Section XI of the Modifications of Activities Planned for 2000-2001 notes changes to existing refuges and survival caches in the McMurdo area as well as deactivated camps and stations elsewhere on the continent.*

*No significant changes to these facilities occurred during the 2000-2001 season.*
