### About Research.gov

#### Who We Are

Led by the National Science Foundation (NSF), Research.gov is a partnership of federal research-oriented grant making agencies with a shared vision of increasing customer service for the research community, while streamlining and standardizing business processes amongst partner agencies. [MORE](#)

### Services

Online tools to help you manage your grants

Welcome to Research.gov. Below is a list of services that we offer. Select a service from below to find out more.

- [Research Spending and Results](#)  
Now Available! Find Recovery Act Awards made by NSF. Here you can also find information about how NSF and NASA grant award dollars are being spent, what research is being performed, and how the outcomes of the research are benefiting society.
- [Policy Library](#)  
An electronic library that consolidates Federal and agency-specific policies, guidelines and procedures for use by Federal agencies and the awardee community. Agency-specific documents are included only for Research.gov partner agencies.
- [Grants Application Status](#)  
Principal Investigators and Sponsored Projects Office staff can check the status of grant applications, from submission to decision, submitted to NSF, USDA/CSREES, and DoD/ARO. Account Required.
- [Institution and User Management](#)  
Institution Administrators can manage profiles and permissions for their institutions and users. Account Required.
- [Federal Financial Report](#)  
Institutions can prepare and submit grant financial reports to NSF using the new government-wide standard form. Account Required.
- [Recovery Act](#)  
Learn More About the American Recovery and Reinvestment Act of 2009.

#### Events

### My Desktop

You are invited to preview the new NSF Research.gov Desktop, an intuitive and flexible online workspace for NSF staff, along with the first new tool to be offered on the Desktop, Find Reviewers. The Desktop and Find Reviewers help to illustrate the kinds of exciting tools and services that are possible with NSF's modernized technology architecture. Try out the Desktop and Find Reviewers today and tell us what you think! NSF needs your feedback and input to help shape this workspace and the new tools that it offers.

The ultimate goal for the Desktop is to provide staff with an integrated location where they can access the resources needed to support their program work – a seamless experience for completing a variety of mission functions! The Desktop will provide easy, centralized access to the services, tools, and grants management information you need, including:

- Existing information (such as Principal Investigator and Reviewer data) provided in a single view, which can be utilized in dynamic ways previously not possible
- New information that was previously hard to find or inaccessible
- Brand-new tools and services, as well as existing business applications
- Instructional materials and job aids

To get started on the Desktop, reference the [Desktop Tip Sheet](#) provided below.

The first tool available on the Desktop, [Find Reviewers](#), showcases the possibilities that exist in this
